6-Jan-06	186	638
Average	261	783

Summary:

The average response time of 0.783 seconds is within acceptable parameters, though considerably slower than the benchmark. Network slowdown could be an issue and network infrastructure would benefit from further testing.

- Page download time is in addition to server response times and has not been measured.
- Recommended max limit for response is 1.0 seconds (red line above) .
